

### MANY ONTARIANS SEE "FAIR AND WARMER"

Special Train to Be Run to Last Road Show of Season at Weiser, which will be the Musical Comedy, "Mutt and Jeff's Wedding."

The special train which went to Weiser Wednesday evening to carry the Vale, Ontario and Payette theatre goers...

Judging by the hilarity in which they indulged during the performance they were well repaid for the trip. The clever lines and stinging comments on married life furnished plenty of opportunity for the exercise of the side muscles used to produce the real ha ha.

Next Wednesday the last road show

of the Weiser season will be presented. The attraction will be the musical comedy, "Mutt and Jeff's Wedding," as the name indicates scenes and stories told in Bud Fisher's cartoons form the basis for the sketch around which the music is written. All the advance notices indicate that as a mirth producer it is a winner. A special train will leave Ontario at 7 o'clock to take the delegation to the show.

### Professional Men

What would the world do without its professional men, its doctors, lawyers, teachers, preachers and others in professional lines? Take the doctor for example. You don't think so much about his services to the community until you happen to need him. Then you need him and need him badly. It's much the same way with the others. Even the banker might be included in the professional list, but whether you consider our job a professional one, or just that of a plain day laborer, our value to the community rests upon the service we render, so the name is unimportant. The professional men are among our most respected customers and we are glad to be of service to them in every way possible, as well as to all others.

### GROUND SQUIRRELS MUST BE ERADICATED

Little Pest Do Immense Damage to Farmers—Government Expert to Direct Campaign.

Twenty communities have complained on the ravages of the little "sage rat" or Plate ground squirrel. "They are small but mighty" when it comes to destruction of all crops, especially those of the dry farmer. A. F. Taylor, U. S. Biological Survey, whose efforts in poisoning rabbits, are well known has, by request of the County Agricultural Agent been scheduled to remain in Malheur County during March, to assist communities in poisoning the little squirrels. The object will be to have the County furnish one half the poison to the communities, the same arrangement as was followed in the rabbit poisoning campaign. The farmers will be asked to furnish the grain and other articles. Instructions as to the method of poisoning will be given. The object of this squirrel poisoning is to teach the farmers how to combat them and consistent community efforts. Many individuals have fought these pests onl yto have their neighbor's squirrels cross over and eat the crops.

W. W. HOWARD,  
County Agricultural Agent.

### BOULEVARD.

W. H. Taton sold 150 tons of hay this week to sheep, men at \$10 per ton. The demand for hay has been so great during the past few weeks that nearly all of the ranchers have disposed of their stocks. A. B. Cain sold the balance of his stock and but a few tons are now on the market.

Word was received this week from Dick Stover who left recently for Stella, Washington, that he was the victim of an accident. He was

kicked by a horse and his right arm was broken.

Farmers along the Shoestring Ditch have been busily engaged this week lanting poison bait for rabbits. These pests worked a serious injury to the farmers along the ditch last year and a determined effort is being made to reduce the rabbit population in this section.

If you have any old clean rags, we will buy them at The Argus Office.
